

District Prague 15

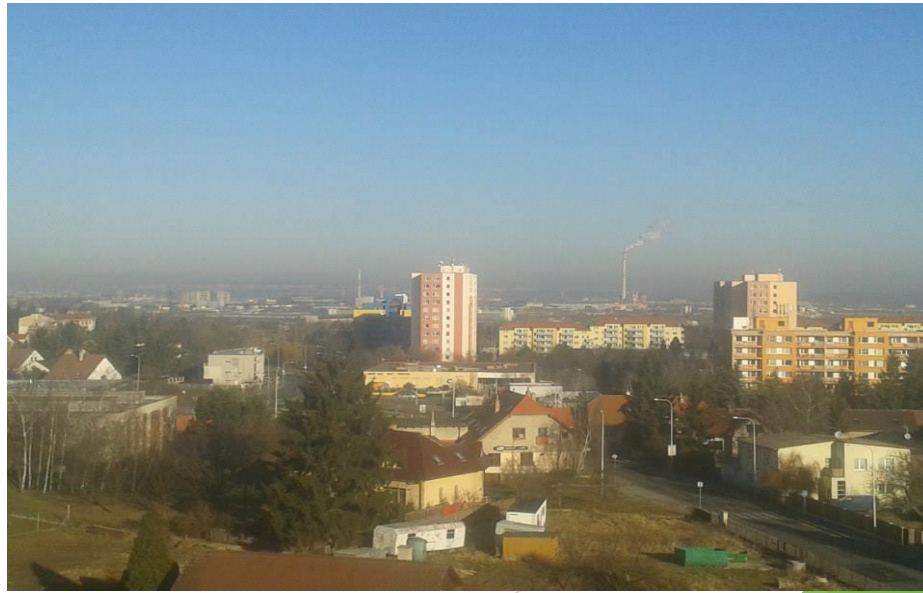

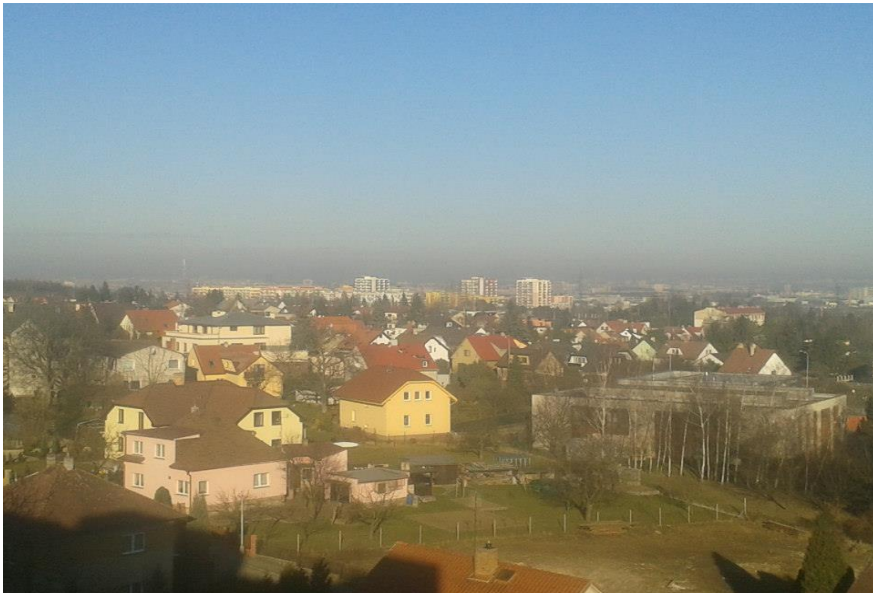

District Prague 15 arose in 1994.

Area of the district: 10.5 km² Inhabitants: 32,500.

There is local government, but its authority is partial.

Local governments are dependent on Prague city government.

Political history: Local government seized by one party - ODS - for 20 years till election 2014, when a new coalition gained majority. Part of this coalition is the local party "Fifteen is our home" (13.7%).

Local party "Fifteen is our home"

Local party "Fifteen is our home" arose in 2013 by connection of two parties - Green Party and Christian Democratic Party.

Reasons of connection:

- ❖ Two small parties that share similar values.
- ❖ Popularity of local party in municipal election.
- ❖ Synergy: it is better to cooperate if you have the same value than to compete.

What have we achieved?

- ❖ **Open government for citizens** - all materials are published, we started participation with citizens about important matters.
- ❖ **Protection of green spaces against developers** - we stopped several big developer projects that threatened environment.
- ❖ **Electronic vote in local authority** - Till 2015 there was only vote by hand sign, we changed it for public control. Prague 15 was the last district where vote by a show of hand was practised.

What do we plan?

- ❖ **Implementation of Local Agenda 21** - We will start Agenda 21 from January 2017.
- ❖ **Rules for public contracts** - We want implementation of internal rules for public contracts as a means of protection against bribery and corruption.
